Complete self-contained unit ideal for:
- EIFS
- Fireproofing
- Stucco
- Plaster
- Self-leveling underlayments
- Mortar sprayer

ChemGrout®
Widest Selection of Grouting Equipment in the World
Delta-Mini

FEATURES:
- Mixing pump for premixed material for interior and exterior applications.
- Machine is filled with drymix materials.
- The installed water dosing system guarantees a continuous mix of the material.
- The machine stops automatically if the water pressure is insufficient.
- Homogenous and continuous mix guaranteed by flowmeter and water pump.

ADVANTAGES:
- Easy transport. The machine can be taken to parts within minutes.
- Compact and robust.
- Maximum power due to special electric control box.
- Low filling height.
- Easy to use and maintain.
- Fast and easy cleaning.
- Chassis based on 4 Wheels for easy transport on construction site.

SERIAL EQUIPMENT:
- Air compressor 170 l/min.
- Cleaning tools.
- Tool kit (cleaning balls and spanners)
- Mixing shaft.
- Water pump 230V 50 Hz.
- Spray gun.
